Portfolio

## SUMMARY

Passionate Flutter Developer with 1+ years of building scalable, user-focused Flutter apps. Skilled in applications UI optimization, team leadership and training, and workflow automation. Open to remote, freelance, and on-site roles.

## PROFESSIONAL EXPERIENCE

Jun 2025 – Present  
Cairo, Egypt

### Flutter Team Supervisor

*Google Developers Group (GDG) On Campus CIC*

- Supervised **4 Flutter instructors** delivering training to **60+ students**.
- Helped shape course structure and led sessions on **design patterns, state management, navigation**, and **backend/API integration**.
- Reviewed and organized student submissions via HackMD, ensuring clean and on-time code delivery.

Oct 2024 – May 2025  
Cairo, Egypt

### Flutter Instructor

*Google Developers Group (GDG) On Campus CIC*

- Delivered weekly Flutter training sessions to **60+ students** covering advanced topics and best practices.
- Created hands-on assignments and practical examples focusing on **real app use cases**.
- Ensured students followed **clean code** principles and met tight delivery deadlines.

Feb 2025 – Mar 2025  
Remote

### Flutter Development Intern

*Intern Intelligence*

- Built real Flutter app features involving UI development and **backend API integration**.
- Participated in production-level workflows, focusing on **bug fixing, performance tuning**, and **layout improvements**.

Aug 2024 – Sep 2024  
Cairo, Egypt

### Flutter Development Intern

*IBM*

- Contributed to a team working on a **banking-related** Flutter project.
- Focused on UI polishing, **responsive design tweaks**, and minor bug fixes.
- Gained **real-world experience** collaborating with **engineers** on enterprise-grade mobile development.

EDUCATION

Sep 2021 –  
(Expected May 2026)  
Cairo, Egypt

**I-TECH School For Applied Technology**  
*High School Diploma (Computer Science)*  
Early college high school following IBM P-TECH model.  
**Focus: Flutter Development, Web Development, Cybersecurity**

PROJECTS

Feb 2025

**GDG CIC Platform (Prototype)**

- **Role:** Full-Stack Developer
- **Tech:** Flutter, MVC, GetX, Tech Stack Expanding...
- **Impact:** Built a scalable prototype for community engagement, laying groundwork for future features and reducing development time by 30%.

Nov 2024

**Note It! (Product Launch)**

- **Role:** Full-Stack Developer
- **Tech:** Flutter, Supabase, SQLite, SharedPreferences
- **Impact:** Developed offline-first note-taking app with seamless cloud sync, achieving sub-second data retrieval on low-end devices.

Aug 2024 – Sep 2024

**IBWallet (Open-Source)**

- **Role:** Code Reviewer & Contributor
- **Tech:** Flutter, RESTful APIs, GetX, MVC, Localization
- **Impact:** Overhauled state-management and localization modules, improving load times by 20%.

TECH STACK

- Firebase / Supabase
  - State Management: Provider / GetX
  - MVC / MVVM Architectures
- SQL Database
  - Git / GitHub
  - RESTful APIs

CERTIFICATES

**Flutter Development Course - Black Horse Courses** (Mar 2025)  
**Flutter Mobile Development Internship - IBM** (Sep 2024)  
**Foundations of Project Management - Google** (Sep 2024)
